About Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms including: lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by sitting further from the television screen, using a smaller television screen, playing in a well-lit room, and not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

Other Important Health and Safety Information

The Xbox video game system documentation contains important safety and health information that you should read and understand before using this software.

Avoid Damage to Your Television

Do not use with certain televisions. Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of game play may "burn in" to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner's manual to determine if video games can be safely played on your set. If you are unable to find this information in the owner's manual, contact your television dealer or the manufacturer to determine if video games can be played on your set.

Unauthorized copying, reverse engineering, transmission, public performance, rental, pay for play, or circumvention of copy protection is strictly prohibited.

Note: For the latest community events, gameplay hints, and tips, visit www.needforspeed.ea.com.

Career Mode

Only the driver with the highest bounty and most impressive rap sheet will climb the Blacklist and become the Most Wanted. Think you're ready for glory? The road starts here.

- To start a game in Career mode, select CAREER in the Main menu then either RESUME CAREER, START NEW CAREER, or LOAD an existing alias.

Free Roam

The best spots to race in the city and its surroundings are begging to be discovered. Drive around to get a feel for the lay of the land, and as you cruise the world, test out some juicy stretches of road. Just remember to keep your eyes and ears peeled for news on the daytime racing scene and watch out for the cops. They stop at nothing to keep racers off the streets.

- To explore, select RESUME FREE ROAM in the Safe House menu.

The Blacklist 15

The Blacklist represents the fifteen street racers who are the most wanted by the police. Beat every one of them and you'll shoot to the top of the list, becoming the Most Wanted street racer. You'll need to challenge and beat every one of them using your driving skills. To do this, complete a series of events and challenges to prove your mettle.

- To view the Blacklist, select BLACKLIST 15 in the Safe House.

Events, Milestone Competitions, and Challenges

You have to earn your right to see your name on the Blacklist 15. To do this, win races, complete pursuit milestones, and evade the cops. If you're good enough, you may find yourself challenged to a showdown with one of the Blacklist racers. Beat them and you'll score their spot on the list.

- To jump to an event, select BLACKLIST 15 in the Safe House menu, or press  when you are in a Free Roam. Select RACES or MILESTONES and press  on the event you wish to enter.

Cop Pursuit and Bounty

In the anything-goes world of street racing, the cops can be anywhere, and like you, they've got a few tricks up their sleeves. Eluding them requires a cool head and a little bit of fancy pedal work.

Keep your eye on the Heat Meter, which surrounds your minimap. As your heat increases from 1 to 5, the chase gets tougher and the cops get harder to beat. If your driving style is particularly attention-grabbing, you may find yourself being pursued by state or even federal authorities. As the chase escalates, so does the quality of gear the police use to try to take you down. Those tiny roadblocks set up by the small-time fuzz may be a cinch for you to bypass, but try getting away from

that state police chopper or heavy SUV. It's not just your rival racers you have to worry about. If you successfully evade the cops, they will increase your bounty and bump you up their Blacklist. Get busted, however, and it will cost you.

Tip: There are hiding spots all over the open world where you can lay low until the heat is off. When you're in cooldown (meaning you broke line of sight with the pursuing cops), hiding spots appear in your minimap. Pull into one to speed up the cooldown period.

Note: While in a police pursuit, you are unable to enter any locations or races.

Rap Sheet

Ever wonder what the cops think about when they hear your license plate number over the radio? View your rap sheet to find out. Your rap sheet offers the police your pursuit statistics, the number of infractions on your record, and the total amount of dollars your antics have cost the state.

- To view your rap sheet, select RAP SHEET in the Safe House.

Quick Race Mode

Enter a variety of one-off races. Choose between a QUICK PLAY race and a CUSTOM RACE, or race a friend in SPLIT SCREEN mode.

Quick Play

Jump right into the driver's seat in a Quick Play race. In Quick Play, the event type, track, and car you drive are all picked for you. All you need to do is show up and be ready to throw down. You could get lucky and get a car that has not yet been unlocked in Career mode.

2. Choose QUICK PLAY.
3. A screen appears showing the race type, track, and car you'll be driving. To select a new configuration at random, press .

TOLLBOOTH

A traditional lap-style course. Finish first and leave your competitors driving in circles.

A pedal-mashing, speed-shifting race to the finish line.

There are speed traps posted all over the city. Blow through each as fast as possible. Earn the highest cumulative score and you're the winner.

Find out how fast you can get from point A to point B.

Smack your way through as many tollbooth checkpoints as you can. As the race progresses, the allotted time you have to hit the next checkpoint decreases. If you hit a checkpoint with time to spare, you get a bonus.

Customization (My Cars)

Cold hard cash is the currency of choice on the street. With it, you can outfit your ride with a variety of aftermarket parts you'll find in the shops. To earn money, enter—and win—one of the daytime racing events happening around town.

As your bounty increases you get the chance to go up against key opponents in order to earn markers. Markers allow you to unlock special visual and performance upgrades in the shop's back room. This is reserved for only the best racers. If you go up against a member of the Blacklist 15 and win, the marker you earn may even be a pink slip—redeemable for your opponent's ride. Not bad for a day's work.

- There are one-stop shops all over where you can do everything from customize your engine to add the latest paints and decals.

Note: When you upgrade your ride, your old parts are automatically traded in.
